## HEALTHY HOMES PROGRAM

The Delaware Healthy Homes Program—part of the Division of Public Health—is offering **free and confidential** Home Health Hazard Assessments to any family living in Delaware City. The home assessments consist of a discussion with an environmental specialist about health hazards in the home, visual inspections, basic air monitoring (measurements of oxygen, carbon monoxide, carbon dioxide, temperature, humidity and volatile organic compounds) and an assessment of lead based paint if your house was built before 1978. More comprehensive assessments will be offered based on the results of the initial assessment. In addition, with the Delaware City Environmental Coalition, the Healthy Homes Program will offer 80 homes up to \$50 in green products if they have a free home health assessment done. For more information, please call the Delaware Help Line toll free at 800-464-HELP and ask for the Healthy Homes Program.
