

# What Should You Do If A Coastal Storm Threatens Your Community?

**Look Inside**  
There are two paths to take

## FAMILY PREPAREDNESS TIPS FOR EVACUATING DURING A COASTAL STORM

- Stay alert to storm advisories  
Watch and Warning—know the difference.
- Enact your family disaster plan
- Map out your route  
Use travel routes specified by local authorities. DO NOT get on the road without a place to go.
- Fill your car with gasoline
- Evacuate if told to do so  
DO NOT get stranded, EVACUATE EARLY.
- Enact your pet plan  
Before a storm threatens, contact your veterinarian or local humane society for information on preparing your pets for an emergency. Shelters do not usually accept pets.
- Bring your disaster supply kit  
Including important documents, identification, and proof of residency.
- Secure your home before leaving  
Board up windows and glass doors, anchor loose yard objects or bring them inside and lock your doors.
- Get cash  
Following a coastal storm, banks and ATMs may be temporarily closed.
- Notify family and friends of your plans
- When evacuating:  
If possible, evacuate to the home of either friends or family in a non-vulnerable area within your county. Next, try a motel or hotel and as a last resort go to a shelter.

People who require special assistance in evacuating should register with their local emergency management office.

### Watch and Warning...Know the Difference

A **WATCH** issued for your part of the coast indicates the possibility that you could experience coastal storm or hurricane conditions within 36 hours. This watch should trigger your family's disaster plan, and protective measures should be initiated—especially those actions that require extra time such as securing a boat, leaving a barrier island, etc.

A **COASTAL FLOOD WARNING** issued for your part of the coast indicates that moderate or severe coastal flooding is occurring, is imminent, or is expected within the next 12 hours.

A **HURRICANE WARNING** is issued when sustained winds of at least 74 mph are expected within 24 hours. Once this warning has been issued, your family should be in the process of completing protective actions and deciding the safest location to be during the storm.
